WORK EXPERIENCE

Sony (sponsored project) | UX Designer

Seattle, WA | Jan 2026 - Jun 2026

- Researched (11 interviews) and designed an interactive TV sports experience utilizing AI commentators.

Ansys, part of Synopsys | UX Design Intern

Canonsburg, PA | Aug 2025 - Dec 2025

- Redesigned the Variation Panel workflow in Discovery, a **complex SaaS system** for mechanical engineers, consolidating 7 pop-ups into a single streamlined flow to reduce clutter and improve usability.
- Proposed and prototyped an **AI Copilot** for Discovery, leveraging **AI-driven prototyping** for faster stakeholder alignment and concept communication, influencing the product's long-term roadmap.

Alibaba Group | Product Design Intern

Shanghai | Jun 2025 - Aug 2025

- Assisted in the team's design tool migration, **rebuilt and refined the design system & facilitated workshops**.
- Redesigned Freshippo (Online grocery)'s product recommendations, **lifting add-to-order conversion by 3.12%**.

Trip.com Group Asia's leading OTA | UX Designer **Full-time**

Shanghai | Jun 2022 - Aug 2024

- Led end-to-end redesign of Charter Service by leveraging user behavior data and usability studies across multiple initiatives, driving a **49.7% increase in order conversion** over 1 year, validated via **iterative A/B testing**.
- **Initiated and owned a motion design project** to enhance the airport transfer experience and fluency, partnering with PM and engineering; established foundational motion guidelines and secured leadership buy-in.
- Redesigned the B2B customer service system, **reducing task handling time from 11.35 to 9.46 minutes**.
- Conducted surveys, data analysis and qualitative interviews that shifted the charter service focus from a business and travel mix to fully travel-focused.

Accenture | UX Designer **Contract**

Shanghai | Aug 2021 - Dec 2021

- Conducted focus groups, worked with cross-functional partners and clients, designed wireframes & storyboards, and presented for the off-road vehicle HMI; secured a follow-on video production project valued at **\$140,000**.

Bilibili Streaming service | Product Design Intern

Shanghai | Jun 2021 - Aug 2021

- Designed live streaming control pages for suppliers, enhanced their ability to monitor their streamers.

Zilliz Saas | Product Design Intern

Redwood City, CA | Apr 2021 - Jun 2021

- Redesigned the milvus.com homepage and Zilliz Cloud data dashboard, translating complex technical jargon into intuitive, developer-friendly interfaces within a fast-paced startup.

EDUCATION

University of Washington

Sep 2024 - Jun 2026

M.S. Human Centered Design and Engineering

Tongji University College of Design & Innovation (QS 10)

Sep 2017 - Jun 2022
